The system of fogging exists at Eton, as at nearly all large public schools, but it is practised now in a much modified form. As shortly described it may be said to be the acknowledged right of the elder boys to exact from the younger boys (their fags) certain services, menial and otherwise. Its stight is obscure, it may have arisen as an economy when schools were pear, as it must sake expense and labor for the younger boys to black boots, make ica and boil eggs for the elder ones. But Eton is now exceedingly wealthy, its endownents being hearly \$12,00 at year, and there can be more taken which because a lad is young he should have to wait upon his schoolmate as his servant and because a lad is young he should have to wait upon his schoolmate as his servant and there can be not exposed to the charce of very great tyfally by in the latter end of the last century the faging was so cruel and excessive that it is fenored that often a young fag would be kept up waiting on his master till 1 o'clock in the morning, and his own lessons for the next day would receive it threshing from lack of time prevented from getting that often a young fag would be kept up waiting on his master till 1 o'clock in the morning, and his own lessons for the next day would receive it threshing from lack of time prevented from getting that often a young fag would be kept up waiting on his master till 1 o'clock in the morning, and his own lessons for the next day would receive it threshing from lack of time prevented from getting from lack of time prevented from getting that often a young fag would be kept up waiting on his master till 1 o'clock in the morning and his own lessons for the next day would receive it threshing from lack of time prevented from getting the fag were reported but fagging at Eton has been greatly referred.

Tailor-Made Dresses

Commercial tailoring for women means to you that even the dress sold here at a few dollars was designed and shaped by a man tailor, whose services are worth several thousand a year-by someone who if working to your special order would command usual high-rate tailor prices. Yet he makes as much money and gets work more congenial to him by making what come to you as ready-made dresses.

This simply to explain why Wanamaker suits at all prices are correct in style; perfect in hang and dip of skirt, and proper in finish.

\$8.50 to \$115.

It is chiefest concern to have the dress right—the price range should meet all requirements. Values are liberally in your favor, because we take as small profits as does any business house, and we save by the economy of largest ordering.
